Workshop Registration Information:**Program Description:**

After years of consistent decline, the rate of children and youth in foster care has increased due to the opioid crisis. Youth in foster care and young adults who have aged out, face unique challenges and experience higher than average rates of trauma. This workshop will address the consequences of trauma, disrupted attachment and systematic challenges children and youth face in foster care.

Learning Objectives:

After the completion of this webinar, participants will learn:

- Long-term implications of foster care placement
- How to identify attachment style of youth in care
- Needs of aging out young adults
- Understand the systemic challenges impact children and youth in care
