ONLINE MASTER OF SOCIAL WORK

Experience the many benefits of remote learning through Daemen's fully online master of social work program. Our students engage in interactive coursework and gain an in-depth understanding of social work theories, methodologies, and techniques. Students take two courses at a time in eight-week segments. Most classwork is designed for independent study, however, the program also features live, one-on-one meetings where students and faculty come together to engage clinical skills and techniques.
