AGENDA

1. NYS-NYC MERGER.

Elaine reports still in process but no specific updates.

2. AWARDS LUNCHEON,

Details regarding schedule were established. Assignments solidified re: tasks for Steering Committee members.

As of now we have no final count of attendees. Elaine will contact Kalliope Moskos at Chapter office for final count.

Final details were defined. It was decided to show video made by students during informal breakfast time.

3. BUDGET

We currently have \$607.00. before Luncheon expenses.

We don't know the final tally from the March CEU presentation - how many Western Division members took advantage of the free ceus offered to Western Division members . Ways to spend the \$607.00 before the end of the budget year were discussed. Options identified were another member breakfast like last year or another Annual Membership meeting the beginning of June. Sylvia agreed to contact Dash's and inquire about the private upstairs room. Other options were to order more merchandise to distribute to students, members, etc.

4. SCHOLARSHIP FUND

Elaine reported we have \$200.00 in the fund. Discussion ensued on how to distribute, give to a single student at Fall academic year and rotate schools yearly to pay for school expenses. This was tabled for further discussions. It would require finding a regular income source for the fund.

5. CEUs

Elaine reported we only have one more ceu presentation on April 9. She suggested we try to identify additional presenters. Cheryl E suggested we inquire at the luncheon if anyone there is interested.
